So obviously we do not have a physical missing piece that we are always trying to fill but we do still have a missing piece. There is a space in each of us that can only be filled by God. We may try to fill it with other things or people but there is only one thing that will fit into the missing space. When we fill our missing space with God then we become "More than Meets the Eye." People can't see that we have God in us by just looking at us most of the time but God is there and shines through us. Jesus was our perfect model for how to live with the light of God shining out for everyone to see. Like Jesus, people will know that we have the light of God in us by our love.

Prayer

Dear God,

Thank you for filling our missing pieces. Help us to love others so that they can see that you have filled our missing piece! And thank you for making us "More than Meets the Eye." Amen.
